Industrial Cleaners, Solvents & Specialty Products

SAFE CARE® Carpet & Upholstery Spotter & Shampoo

DESCRIPTION: *SC-Carpet & Upholstery Spotter & Shampoo* is comprised of non-ionic surfactants and a water hardness modifier to create a powerful micelle cleaning action that can tolerate tremendous soil loads. *SC-Carpet & Upholstery Spotter & Shampoo* penetrates and lifts hydrocarbon soils including fats, oils, greases, proteins and sugars without damaging carpeting fibers or upholstery fabrics. Because *SC-Carpet & Upholstery Spotter & Shampoo* is most effective on organic soils, it is not recommended for use on items that have been dyed with “natural” colorants. *SC-Carpet & Upholstery Spotter & Shampoo* complies with:

- OSHA 29-CFR Ch. XVII 1910.1200 and 40 CFR Ch. 1, Subparts C & D
- USEPA 600, 4-90, 027 for aquatic toxicity
- USEPA 601 & 602 for VOC testing
- GSA SIN 375-361 & 375-363

INSTRUCTIONS: For best results, *SC-Carpet & Upholstery Spotter & Shampoo* should be used with extraction equipment. Recommend pre-testing product on “dry-cleaning only” items before application.

Spotting: Scrape hardened soil such as dried food, dirt or chewing gum before applying product full strength to spots. Product may be applied with a spray bottle. For best results, agitate with a nylon brush and allow 5 – 10 minutes of dwell time before extraction cleaning. It is important to remove all residual product with a water rinse to prevent re-soiling.

Shampooing: Follow manufacturers recommended dilution schedule for preparing cleaning solution in extraction machines. Generally 1% (1 oz. per gallon) of *SC-Carpet & Upholstery Spotter & Shampoo* is adequate for warm water extraction. For best results, rinse all areas after shampooing with warm water.

BASIC PROPERTIES:

Appearance:	Clear, very light amber liquid
Odor:	Mild surfactant
Water Solubility:	100%
Boiling Point:	100°C (212°F)
Flash Point:	None
Specific Gravity:	1.004
Relative Density:	Greater than water
pH Range:	10.2 – 10.5

SAFE CARE® PRODUCTS ARE:

- Non-toxic
- Non-reactive
- Non-carcinogenic
- Readily biodegradable
- Derived from renewable resources
- Safe to use, store and dispose of

SAFE CARE® PRODUCTS DO NOT CONTAIN:

- Petroleum distillates
- Glycol ethers
- Terpenes
- Synthetics
- Builders & reagents
- Caustics
